

Glufosinate

Glufosinate is used for control of a wide range of annual and perennial broad-leaved weeds and grasses in fruit orchards, vineyards, rubber and oil palm plantations, ornamental trees and bushes, non-crop land, and pre-emergence in vegetables. Also used as a desiccant in potatoes, sunflowers, etc. For control of annual and perennial weeds and grasses in glufosinate-tolerant crops (oilseed rape, maize, soya beans, sugar beet) developed through gene technology.

Action: * Non-selective contact herbicide with some systemic

CAS No.: 53369-07-6

Technical Grade: 95%min.

Formulations: 15%SL, 50%SL

Packaging¹: * 25kg drum (TC)

* 1L bottle (SL)

| Crops/Situation | Target Weeds | Dose (a.i. g/ha) |
|------------------------|---------------------|-------------------------|
| <i>vegetable</i> | | <i>450~750</i> |
| <i>Banana</i> | <i>weed</i> | <i>600~900</i> |
| <i>papaya</i> | | <i>600~900</i> |
| <i>Tea</i> | | <i>600~900</i> |

¹NOTE: Upon request we provide customized packing
